# COURSE DELIVERY PLAN 2024

**Core/Elective** Core (a unit that must be completed) & Elective (you have some choice in what you select).

**Prerequisites** A number of units within the degree have 'prerequisites'. These prerequisites must be met before enrolment in the unit is permitted. Generally these prerequisites require the successful completion of a unit or units taken at an earlier stage in the course. Students should pay particular attention to these prerequisite requirements as failure to meet these can seriously hinder progression through the course.

**Date of Publication:** This information is current at the publication date: 24/10/2023. It is provided as information only and does not form part of a contract between any person and Victoria University.

**VICTORIA UNIVERSITY**

## MAJORS:

### Public Health HMAPBH

The Public Health Major provides students with knowledge and skills in Public Health and Health Promotion.

The major develops the student's knowledge base in Public Health and Health Promotion and focuses on the application of knowledge, policy, and research in improving the health of populations. Students completing this major will have an understanding and perspective on how to address contemporary health problems related to critical social and behavioural factors that influence health outcomes.

Students choosing the minor, HMAPBH Public Health, may be required to obtain a 'Working With Children Check' prior to undertaking the unit, HHB2402 Health Program Planning and Evaluation.

## Indigenous Health HMAIND

The Indigenous Health Major builds on the Indigenous Health Minor to provide students with a complete context and understanding of the cultural and historical factors that need to be considered when developing and implementing health programs for Australian Aboriginal populations.

Students explore, analyse and deconstruct disciplinary and lived perspectives, impacts and outcomes for Australian Aboriginal individuals and communities in the 21st Century. Topics that are explored include history, human rights, traditional owners, sovereignty, governance and societal structures, and colonial systems of power through an inter-disciplinary unit set, and how these influence and impact the health outcomes of Australian Aboriginal populations and communities. In addition to this students may explore contemporary health and community interventions used by Aboriginal organisations and communities and their relationship to the conventional western medicine construct and mainstream service provision.

A group research project will be presented in relation to Australian Aboriginal health, representing discipline and multi-disciplinary approaches through detailed action plans.

UNIT CODE	UNIT TITLE	UNIT TYPE	SEM	CREDIT POINTS	CAMPUS	PRE-REQUISITES
<b>Year 2</b>						
AEK1105	Aboriginal Traditions and Policy	Major	1B2, 1B3, 1B4, SB1	12	FP	
AEK1204	Aboriginal History and Political Movements	Major	2B1, 2B2, 2B3, 2B4	12	FP	
AEK2203	Indigenous Perspectives On Sustainability	Major	1B4, WB1	12	FP	AEK1105; or AEK1106; or AEK1204
AEK2205	Politics of Aboriginal Art	Major	1B3	12	FP	AEK1105; or AEK1204
<b>Year 3</b>						
AEK3203	Working Ethically in Aboriginal Community	Major	2B1, 2B2, SB1	12	FP	AEK1105; or AEK1204; and AEK2203; or AEK2205
AEK3204	Aboriginal Political and Reflective Learning	Major	2B3	12	FP

# COURSE DELIVERY PLAN 2024

## Bioscience HMIBIO

The Bioscience minor builds on the first year units of Bioscience 1 and 2, and examines the natural physiological changes that occur throughout the life cycle; introducing students to the major pathological disease processes of the body via discussions on the basis for preventative interventions and management of important pathological conditions.

UNIT CODE	UNIT TITLE	UNIT TYPE	SEM	CREDIT POINTS	CAMPUS	PRE-REQUISITES
<b>Year 2</b>						
RBM2530	Pathophysiology 1	Minor	1B1, 1B3, 1B4	12	FP	RBM1518, RBM1528
RBM2540	Pathophysiology 2	Minor	2B2, 2B3, 2B4	12	FP	RBM2530
<b>Year 3</b>						
HBM3106	Reproductive and Developmental Biology	Minor	1B1, 1B2, 1B4	12	SA	RBM2540
HBM3205	Clinical Genetics and Cellular Basis of Disease	Minor	2B3, 2B4	12	SA	

## Health and Nutrition HMIHNU

The Health and Nutrition Minor introduces the student to the role nutrition plays in individual health and populations through the lifespan. Upon completion of the minor students will have an understanding of the link between nutrition and health, wellness and illness and their determinants.

UNIT CODE	UNIT TITLE	UNIT TYPE	SEM	CREDIT POINTS	CAMPUS	PRE-REQUISITES
<b>Year 2</b>						
HBM2103	Digestion, Nutrition and Metabolism	Minor	1B2, 1B3, 1B4	12	SA	HBM1202
HHN2001	Family Health and Nutrition Through the Lifespan	Minor	1B2	12	FP	
<b>Year 3</b>						
HHN2402	Diet & Disease	Minor	2B1	12	FP	HBM2103
HHN3002	Sport and Exercise Nutrition	Minor	2B3	12	FP	HHN2001; or HBM2103; or

## Health (Sport Science Minor) SMIHEA

Being healthy is important to all of us. Our health is influenced by a range of individual and behavioural factors as well as physical and social environments. Studying health will help you to develop skills and knowledge to make decisions about your own health, inform others, and also to recognise the importance of health in society. You will also become aware of how to support and promote healthy behaviours of others. The minor in Health provides you with an understanding of the individual and societal influences on health and human development. You will study areas covering adolescent health, sexuality and relationships, social bases of health and health promotion and policy.

## Indigenous Health HMIIND

In the Indigenous Health Minor, students explore, analyse and deconstruct disciplinary and lived perspectives, impacts and outcomes for Australian Aboriginal individuals and communities in the 21st Century. Topics that are explored include history, human rights, traditional owners, sovereignty, governance and societal structures, and colonial systems of power through a series of multi-disciplinary units and how these influence and impact the health outcomes of Australian Aboriginal populations and communities. In addition to this students will explore contemporary community interventions used by Australian Aboriginal organisations and communities and their relationship to the conventional western medicine construct and mainstream service provision.
