<b>TIMETABLE</b>	<a href="http://vu.edu.au/timetables">http://vu.edu.au/timetables</a>
<b>COURSE REQUIREMENTS</b>	The Honours course is a one year (full-time) commitment. Students enrol and complete RBM4003 (48cp) and RBM4002 (48cp), receiving a single, final mark and grade at the completion of the course. Students will receive a GPA grade after completion of both Science Honours 1 and Science Honours 2 with the grade allocated to the unit Science Honours 2. Science Honours 1 will be weighted 35% and Science Honours 2 will be weighted 65% of the GPA grade for the Science Honours course. This weighting reflects the whole of year nature of the Honours degree and allows development of higher level written, oral and analysis skills, using feedback from assessors and their supervisor during the year, thus placing the bulk of the marks associated with the final thesis when all AQF level 8 skills have been obtained. This is also necessary for application and entry to many doctoral programs which require the thesis to form more than 50% of the grade.

**Core/Elective** Core (a unit that must be completed) & Elective (you have some choice in what you select).

**Prerequisites** A number of units within the degree have 'prerequisites'. These prerequisites must be met before enrolment in the unit is permitted. Generally these prerequisites require the successful completion of a unit or units taken at an earlier stage in the course. Students should pay particular attention to these prerequisite requirements as failure to meet these can seriously hinder progression through the course.
