

22682VIC

Certificate II in Electrotechnology

(pre-vocational)

About

This introductory course equips you with knowledge and skills that are the fundamentals of electrical, telecommunication, refrigeration, and air conditioning systems, as well as workshop experience in fabrication and assembly techniques, wiring, cabling, basic installation skills, and use of test equipment. It can contribute to gaining an apprenticeship in electrotechnology (Certificate III level).

You will learn

- ◆ How to prepare to work safely in the construction industry
- ◆ How to fix and secure electrotechnology equipment.

Location and time

Sunshine or Werribee Campus

Tuesday (Sunshine only) or Wednesday or Thursday or Friday, 8.30am–3pm

Duration

Two years part-time, one day a week

Note: This course is expected to change in the future, and the course code, title, units, and content may alter.

Course fees

VU does not charge any fees to students directly to undertake VDSS with us. These fees are in line with the Department of Education & Training fee bands and are charged to the secondary school.

Please contact your secondary school VET Coordinator for course fees.

Program outcomes

Recognition of Units 1 and 2 and Units 3 and 4 sequence are successfully completed.

This program does not offer scored assessment.

Qualification

22682VIC Certificate II in Electrotechnology (Pre-Vocational).

Where the full qualification is not completed, a Statement of Attainment is issued for passed units.

Equipment (student to supply)

- ◆ Overalls or workpants with rule pocket
- ◆ Safety boots
- ◆ PPE – earplugs, safety glasses, safety gloves
- ◆ Calculator
- ◆ A4 ring binder and notebook
- ◆ Ballpoint pen, pencils, rubber, ruler
- ◆ Coloured marker

Course outline

Year 1		Year 2	
CPCWHS1001	Prepare to work safely in the construction industry	UEERA0035*	Establish the basic operating conditions of air conditioning systems
HLTAID011	Provide first aid	VU23735	Install a sustainable extra low voltage energy power system
UEECD0007	Apply work health and safety regulations, codes and practices in the workplace	VU23737	Use test instruments in the electrotechnology industry
UEECD0019*	Fabricate, assemble and dismantle utilities industry components	VU23738	Plan and complete a basic electrotechnology project
UEECD0042*	Solve problems in ELV single path circuits	UEECD0052*	Use routine equipment/plant/ technologies in an energy sector environment
UEECD0020*	Fix and secure electrotechnology equipment	VU23740	Perform energy sector installations of extra low voltage (ELV) single path circuits
VU23480	Perform intermediate engineering computations	VU23739	Carry out basic network cabling for extra low voltage (ELV) equipment and devices
VU23736	Prepare for work in the electrotechnology industry		

*Denotes prerequisite unit prior to commencing

Structured Workplace Learning

The Victorian Curriculum and Assessment Authority (VCAA) has determined that Structured Workplace Learning (SWL) is a valuable component of all VET Delivered to Secondary School students VDSS qualifications undertaken.

VCAA strongly recommends that students undertake a minimum of 80 hours of SWL over the duration of the VDSS Certificate II in Electrotechnology (Pre-Vocational).

Further information regarding SWL is available at:

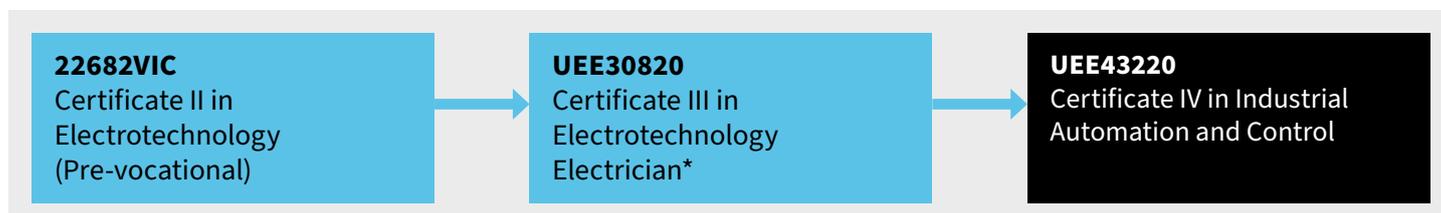

<https://www.vcaa.vic.edu.au/curriculum/vet/swl-vet/Pages/Index.aspx>

Secondary schools are required to organise the Structured Workplace Learning.

Contact
