Core/Elective Core (a unit that must be completed) & Elective (you have some choice in what you select).

Prerequisites A number of units within the degree have 'prerequisites'. These prerequisites must be met before enrolment in the unit is permitted. Generally these prerequisites require the successful completion of a unit or units taken at an earlier stage in the course. Students should pay particular attention to these prerequisite requirements as failure to meet these can seriously hinder progression through the course.

Strict Sequence: Your course units must be completed in a strict order, which will be automatically set up for you in MyVU at the start of each year. It is crucial to follow this order when enrolling, as failing to do so may result in significant delays, potentially postponing your course completion by up to a year. If you face any challenges, such as a missing order in MyVU, unit failures, or other obstacles, it is essential to contact a [Course and Unit Advisor](#) to ensure your enrolment is properly adjusted.

Date of Publication: This information is accurate as of March 27, 2026 and applies to students beginning during the specified intake period. It is provided for informational purposes only and does not constitute a contract between any individual and Victoria University. Students starting in a different intake or unable to follow the plan due to credit or other factors should consult their [Course and Unit Advisor](#) for enrolment assistance.
